### International Society of Arboriculture Certified Arborist Program

**ISA Arborist Certification** is a voluntary program providing recognition of one's professional knowledge by one's peers. Recognition is given by the ISA to those who:

- (1) meet the eligibility requirements for admission to the examination,
- (2) successfully complete the examination, and
- (3) maintain the necessary Continuing Education Units (CEU's) for recertification every 3 years.

**One of the objectives** of the program is to provide to the public and those in government a way to identify arborists who have demonstrated, through a professionally developed exam and education program, that they have a thorough knowledge of tree care practices. Certification provides an opportunity to make an informed selection of services.

The Wisconsin Arborist Association presents this directory with no intended endorsement of particular individuals or companies, their services or standards of practice. Nor is criticism implied of individuals or companies not included, some of whom choose not to participate in the certified arborist program.

**There are over 12,000** ISA Certified Arborists in the US and Canada. This directory was produced so that people in the area served by the Wisconsin Arborist Association can more easily locate a qualified arborist.

### The Directory

ISA Exam Certified Arborists For-Hire and the services they provide are listed in the Main Directory (starting on page 7) by last name in alphabetical order. The County Index (page 3) lists arborists alphabetically by last name under each county in which they provide services. To find an arborist in your area, look up your county to find the arborists' names. Then look up the names in the Main Directory. If there are no Certified Arborists listed in your County, try the "Statewide" heading.

This directory will be updated each year and the information within is current as of December, 2001.

# County Index

The following index lists Certified Arborists alphabetically under each county in which they provide services. The services each arborist provides and contact information can be found in the Main Directory starting on page 7. Those arborists that will work in *all* counties are listed *only* under the “Statewide” heading. If your county is not listed, you should check this heading for arborists.

*Please also note that the arborists listed may not perform all services in all locations indicated.*
