

# Get Help Selecting Medicare Drug Coverage

Prescription Drug coverage is a required component of Medicare. This can come through a stand-alone Part D plan, a Medicare Advantage plan or Senior Care. The Medicare.gov Plan Finder tool is a convenient way to determine which plan will best suit your needs.

### Why is this important?

For an accurate comparison of your current coverage and the other plan options, it is important to have the exact name or plan number, as companies often have multiple plan options. If the exact name of your plan is not listed on the card you can find the plan ID number in the bottom right corner under Medicare Rx.

**If you do not list specific plan information your results will include only the lowest-cost options**
